SMARTfit™

Your brain, your life, for the long run...

Easy to Integrate Into Existing Youth Fitness, Learning, and Sports Programs

FUN

ENGAGING

SOCIAL

Easy for Instructors to Manage and Customize Programming

- Hundreds of predesigned, video-supported programs
- Easy control of large groups
- Programs for each age group and purpose – fitness, learning, sports, special needs
- Automatic baseline and progress tracking
- Teachers/instructors can easily design and manage their own programs

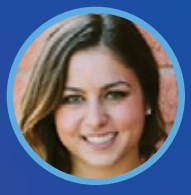

We installed the SMARTfit Multi-trainer and the kids, staff, board and community love it. It addresses all aspects including the mind, body and soul with academic features as well as increased physical activity, cognitive enhancement and fun. The first day of the program had kids that never go to the gym involved and actively participating, including 2 teenage girls who make the A honor roll every time and don't go to the gym."

Amy Nalley - Executive Director, Boys and Girls Club Eden

"It's not often that I'm excited about products but I'm excited about SMARTfit. I spent the better part of my career as a trainer and have been doing dual-task training manually with clients for years. To find a system that provides the fun, is engaging, gamified, and competitive, is just fantastic."

Kathy Fisher - CEO, West Morris Area YMCA

"Using the various activities, our kids are able to work on a variety of skills. Their reaction times and accuracy to hit the targets greatly improve over consecutive trials, demonstrating motor learning and quickened moto responses. We are able to work on static and dynamic postural responses, balance, and proximal stability crucial for participation in playground games and Physical Education classes."

Kimberly Koretoff, OTD, OTR/L, SWC, CAS

Your brain, your life, for the long run...™

SMARTfit Sets the Stage for a New Era in Movement-Based Learning that Trains the Brain and Body Simultaneously

Youth Learn Life Skills Through Play! SMARTfit Makes This Happen Naturally.

- *Community Rec/YMCA/JCC*
- *Military Youth Programs*
- *Boys & Girls Clubs*

SMARTfit Brain Health programs for youth are being adopted across the U.S., delivering measurable gains in participation, engagement, retention, and performance.

SMARTfit Uniquely Trains Executive Function Abilities that Transfer Quickly to Real-World Performance for Youth

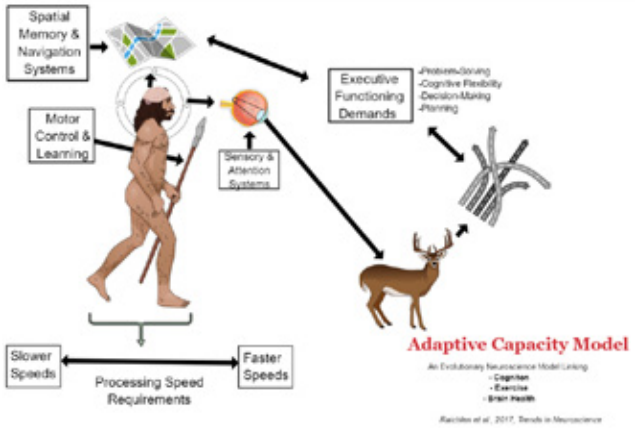

SMARTfit's top down cognitive games, coupled with a variety of motor skill challenges, offers programming for every age and ability.

SMARTfit™
Your brain, your life, for the long run...

Designed by a Teacher for Teachers

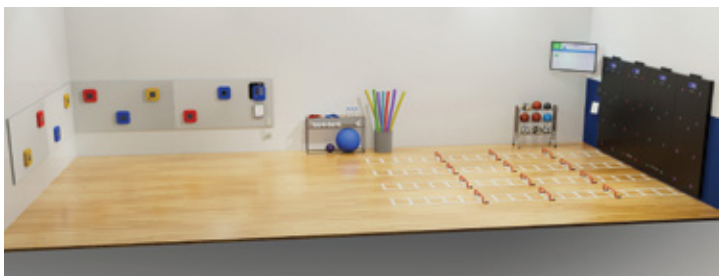

SMARTfit's founder, a former schoolteacher, developed SMARTfit out of a desire to provide learning solutions with movement and play. This is how we evolved to engage with the world as hunter gatherers. It is in our DNA. SMARTfit is a technology that sets up the learning conditions that are aligned with how we evolved.

SMARTfit Games and Activities are Customizable to the Level of the Child

- **Track:** colors, letters, counting, step-counting (addition/subtraction), Left/Right/Both – crossing hemispheres
- **Seek:** colors, step-counting, multiplication, letters, shapes, symbols
- **Metronome:** variations include touch to the beat combined with Seeking games
- **Memory**: numbers, letters, symbols and shapes
- **High Cognitive:** Pattern Recognition, Stroop, Memory, Flanker
- **Equations**: multiplication, division, addition, subtraction and square roots
- **Spelling**: curriculum words of the week. Upload any spelling list in any language and let kids learn their spelling while at play.
